PROFILE

Full Stack Developer (MERN) with hands-on experience building scalable web applications, RESTful APIs, and real-time systems. Proficient in React.js, Node.js, Express.js, and MongoDB, with a strong foundation in Data Structures & Algorithms. Passionate about developing user-centric solutions, integrating secure authentication (JWT), and deploying production-grade applications on Vercel and Render.

EDUCATION

United University <i>B.Tech in Computer Science & Engineering (Pursuing) CGPA: 8.2</i>	Prayagraj, UP
MV Convent Inter College <i>Senior Secondary — Class XII 76%</i>	Prayagraj, UP 2020 – 2021
MV Convent Inter College <i>Secondary — Class X 85%</i>	Prayagraj, UP 2018 – 2019

PROFESSIONAL EXPERIENCE

GeeksforGeeks — DSA Training <i>Trainee</i>	June 2025 – July 2025
Completed an intensive 4-week hands-on program in Data Structures & Algorithms, solving 100+ problems and significantly improving algorithmic thinking and coding efficiency.	
Full-Stack Development Using MERN — Internship <i>United University</i>	June 2024 – July 2024 Prayagraj, UP
- Engineered a full-featured e-commerce web application using the MERN Stack with secure JWT-based authentication and role-based access control. - Integrated a secure payment gateway and optimized MongoDB database schema, reducing query response time by 30%.	
App Development Using Java — Internship <i>IIT Kharagpur (Remote)</i>	November 2023 – December 2023
Designed and developed Android mobile applications using Java, incorporating user-centric UI/UX principles.	

TECHNICAL PROJECTS

UniShop MongoDB, Express.js, React.js, Node.js	June 2024 – August 2024
- Engineered a multi-vendor e-commerce platform unifying 10+ shop categories, enabling seamless product browsing and secure online purchases for 200+ users. - Implemented JWT-based authentication, secure checkout flow, and RESTful APIs; deployed on Vercel with CI/CD workflow.	
Uni-Hotel MERN Stack	October 2024 – March 2025
- Developed a full-stack hotel discovery and booking platform with real-time availability search, secure reservation management, and JWT-authenticated user sessions. - Designed a normalized MongoDB schema improving data retrieval speed; deployed backend on Render and frontend on Vercel.	
UniCare+ MERN Stack	January 2026 – Present
- Currently developing a MERN-based doctor consultancy platform supporting real-time video and voice consultations via WebRTC, with secure appointment scheduling for patients. - Implemented a digital prescription generation system allowing physicians to issue and share prescriptions instantly after consultation, improving post-visit workflow efficiency. - Architected RESTful APIs with JWT authentication and role-based access for patients and doctors; planning deployment on Render and Vercel.	

TECHNICAL EVENTS & CERTIFICATIONS

- **10-Day Skill Development Program** — Centum Foundation in collaboration with Infosys, February 2026 (Certificate Awarded).
- **IBM Expert Lab National Level 2-Day Live Hackathon** — SVYASA University, Bangalore (2025).
- **Machine Learning & Artificial Intelligence Bootcamp** — 2024.
- **SQL (Structured Query Language) Bootcamp** — November 2024.
- 3-Day Workshop on **Generative AI & Human Robotics** — IIIT Allahabad (February 2024).

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Angular, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Flutter.
- **Backend:** Node.js, Express.js, PHP, RESTful APIs, JWT Authentication.
- **Database:** MongoDB, SQL, Mongoose ODM.
- **FullStack Development:** MERN Stack, MEAN Stack, Django .
- **Mobile Development:** Java-based Android Application Development.
- **Deployment & Tools:** Vercel, Render, Git, GitHub, Postman, VS Code.
- **Core Concepts:** Data Structures & Algorithms, OOP, Python, State Management (Zustand), Database Design, API Integration, Responsive Design.

HOBBIES & INTERESTS

- Listening to Music
- Watching Movies and Series
- Solving Problems with Coding
- Playing Cricket
